

Red Lodge Mountain Resort Offices Temporarily Moved To The Golf Course
During the Cascade Fire

Officials have evacuated the Resort due to the Cascade Fire which is burning behind the Resort in the West Fork Canyon of Rock Creek. The fire was last reported to be approximately two miles from the Resort, however, Fire Officials are confident they will be able to protect the ski area from harm at this time. We will keep you updated on this website as to when we are able to move back in to our normal offices at the ski area. Stay posted to FM99 The Mountain for updates on Public Meetings with Fire Officials and other important notices. Here are some notices from Red Lodge Mountain Resort to keep you up to date:
